CORONAVIRUS DISEASE 2019 (COVID-19) LOOKING AFTER YOUR WELLBEING

Dealing with COVID-19 pandemic can be very stressful.

COVID-19 STRESSORS

COVID-19 stressors can vary among people. Some include:

- Dealing with a rapidly changing situation
- Fear of sickness and isolation
- The need to take precautions - stay home, work from home, practise social distancing, etc
- Loneliness
- Loss of income
- Shortage of essential items

STRESS SYMPTOMS

**Physical symptoms:**
- Tense or aching muscles
- Headache
- Sleep disturbances
- Digestive disturbance - nausea, constipation or lack of appetite
- Rapid heartbeat

**Emotional symptoms:**
- Increased anger or aggression
- Lack of concentration
- Irritability
- Nervousness or anxiety
- Sadness

COPING WITH STRESS DURING THE COVID-19

Things you can do to reduce stress:

- Take breaks from listening to, watching or reading about COVID-19, including checking social media.
- Focus on the facts of COVID-19 and understand the risk to yourself and those you care about.
- Separate facts from rumours. Gather information from reliable sources.
- Keep yourself in the best possible health. Sleep well, eat healthy, and be physically active.
- Practise positive thinking.
- Plan your day, prioritise tasks. Feel good about the decisions you make.
- Engage in activities you enjoy - keep yourself stimulated and entertained.
- Talk to people you trust, share your concerns and feelings.

If stress continues to hamper your daily activities, talk to a doctor.
